- Docker basics

TOOLS

- VS Code
- Vite
- Axios
- Zustand
- Swagger / API docs
- Vercel
- Render
- Neon
- Jira / Scrum basics

LANGUAGES

- Lithuanian
Native
- English
Good technical reading,
improving spoken communication.

PROFILE

Early-career Full Stack Developer who enjoys debugging, problem solving and building practical projects. I am disciplined, detail-oriented and calm when working through problems. I like to understand the logic behind issues, ask questions when needed and write code that is easier to understand and maintain.

SELECTED PROJECTS

01 Portfolio v2 [ovidijusrimkus.com](#)

React | Tailwind CSS | Node.js | PostgreSQL

- Personal portfolio website with a clean, responsive UI and project case studies.
- Integrated basic analytics, SEO best practices and an admin panel to manage project content.
- Focused on performance, accessibility and modern design.

02 FitBook [Live demo / GitHub](#)

React | Zustand | Express | Prisma | PostgreSQL

- Full stack booking platform for training sessions with user authentication and secure booking flow.
- Built with React and Zustand on the frontend, Express and Prisma on the backend, using PostgreSQL.
- Includes JWT authentication and an admin panel for managing classes, bookings and users.

03 PetClinic Full Stack [GitHub](#)

React | Express | Prisma | PostgreSQL

- Veterinary appointment management system with patient and admin roles.
- Features pet management, appointment booking and a review flow after visits.
- Built as a full stack application with a focus on clean architecture and real-world functionality.

EDUCATION

- Vilniaus technologijų ir inžinerijos mokymo centras
Junior Programmer (modular program)
Completed in 2026

ADDITIONAL LEARNING / PROFESSIONAL DEVELOPMENT

- Self-directed portfolio development and personal projects.
- Git and GitHub workflow, branching, pull requests.
- Deployment of full stack applications with Vercel and Render.
- API documentation using Swagger / OpenAPI.
- Ongoing learning of full stack application architecture and best practices.

STRENGTHS

- Clean code mindset
- Problem solving
- UI attention to detail
- Fast learning
- Project ownership
